

## Department of Food Engineering & Technology: Industrial Visit of B.Tech. Students

Industrial visit of B.Tech. Students to KRBL, Dhuri was a very awesome and student have learnt a lot about how the BASMATI RICE is produced in India and how they mill it and produces a good quality finished product. During the visit industry has also promised for the industrial training and placement for food students.

Students also visited a **pisciculture (fish farming)** where they learned how the fish is commercially raised in tanks, ponds etc especially for food.
