## 1. Background and Context

Nowadays, forming strategic alliances across sectors has become the new operating norm. But the blurring of sectoral boundaries among governments, businesses and NGOs makes it increasingly difficult to assess functions traditionally performed by a certain sector, since conventional boundaries have dissolved, and power and influence are distributed in networks. One sub-set of such collaborations – business-NGO interactions – has attracted much attention, as NGOs begin to move away from their informal, social roles and venture into economic and political territories.

Business-NGO collaborations may come in many forms: NGOs could partner with firms to function as “civil regulators”, primarily by addressing market and government failures through the development of soft laws, social standards, certification schemes, and operating norms; leverage social capital to transfer localized institutional knowledge to firms; mobilize collective action between governments and firms; and serve as information brokers to connect otherwise disparate groups.

The philanthropic endeavours of firms that give monetary donations to NGOs is one of the most traditional forms of NGO-business interactions in this respect. The difference in missions, strategies and social functions between businesses and NGOs is usually not actively resolved, as NGOs in such partnerships are considered an extra, add-on or peripheral dimension outside a company’s core strategy.

## 2. Objectives behind SOCIAL WORK EXPO

To facilitate the development of a holistic and relevant Corporate Social Responsibilities (CSR) approach, and provide common strategic directions and plans for companies to achieve greater impact with their CSR initiatives.

- Policy Formulation
- Inclusive Growth
- Social Justice
- Resource Conflicts

## 3. The major topics of conversation could be summarized as follows

Each NGO representative gave their presentations and company judged all of the NGOs on following parameters while short-listing one for CSR implementation.

### i. Years in operation

It is important for a corporate to work with an NGO that has demonstrated years of experience and reliability. During this time, it must have mobilised resources, infrastructure and people for a social cause.

### ii. Geography

Companies should preferably look for an NGO near the project area. This not only ensures easier logistics, but also an intimate understanding of the local needs, geography, language, culture etc. The NGO preferably must situate offices or centres with connectivity and other resources in these locations, to efficiently execute projects.

### iii. Reputation

Transparency, accountability and measurable change in a social welfare context are how an NGO's reputation can be measured. This gives a NGO credibility, making it trustworthy of using corporate assets and funding for CSR goals.

#### **iv. Certification (e.g. filing for donation tax return)**

Certification allows corporate to assess if an NGO complies with legal norms, as legal issues can compromise CSR implementation. Certification includes Income Tax exemption, FCRA, service tax, and proper internal documentation in case an audit is requested.

#### **v. Relevant experience**

An NGO must have shown work in projects relevant to the corporate' CSR goals. Coca-Cola India, for example, devotes a substantial amount of CSR efforts to water sustainability, conservation, and sanitation. These projects must be corroborated with completion certificates from clients.

#### **vi. Leadership**

The NGO's leadership must be well-known promoters, with no legal proceedings or controversies to their name.

#### **vii. Credentials**

An NGOs credentials can also be ascertained via certificates, awards, news coverage, and membership of NGO and corporate bodies like CII, Chamber of Commerce etc.

### **4. Expected Outcomes**

- Private sector actors may provide critical amounts of financial support.
- Private sector actors may award grants or donations without criteria for use or other restrictions.
- Private sector interactions increase availability and access to various contacts, political influences and technical expertise.
- Private sector actors may develop internal and external organizations for education, awareness and advocacy.
- Private sector actors may initiate and develop policy-making opportunities for the NGO.

### **5. NGOs that participated in the event**

#### **NGO Representative:**

Mr.Sony Goyal  
Mr.Vijay Kr. Saroha  
Mr. Jaswinder Pal Sharma  
Mr. Amrit Pal Singh  
Dr. Sukhdeep Kaur  
Dr. Sanjeev Kumar  
Mr. Inderjeet Nandan  
Mr. Rahul Dhiman  
Ms. Babita Pathania  
Ms. Amritpal Kaur  
Mr. Jaswinder Singh

#### **Name of NGO:**

Prayas educational and charitabal society  
Sustainability Vision Foundation Trust Sonipat  
Lok Sewa Sahara Club  
SMILE foundation  
Autism Educational Welfare Society  
Rab da Banda Foundation  
Rishi Foundation  
Careness and awareness welfare society  
Careness and awareness welfare society  
Careness and awareness welfare society  
Nadar Foundation

- All the NGO's delivered their social work presentation.
- All the representatives of NGO encouraged the youth to participate in social cause.
- Students were encouraged to work for the society as well.
- Some idea has been selected by the industries and appreciated/funded accordingly.
- Federal Mogul Corporation, Patiala offered project-based support to NGOs up to grant Rs.25 Lacs.

## 6. Conclusions

Vast amounts of funding become available to NGOs as a result of collaboration, partnership, or donation relationship with the corporate sector. This may be funding that would otherwise be entirely unavailable to the NGO. Partnership relationships depend on the characteristics of the individual actors and the specific initiatives being co-ordinated for collaboration. It is necessary, however, that the positive and negative outcomes are equitably and appropriately evaluated and analysed prior to partnership. Understanding the private sector and its motivations, calculating potential positive and negative effects, and determining whether benefit exceeds cost may provide NGOs with guidelines and strategies for developing a positive, beneficial, and rewarding relationship with the business sector.

**Venue:** M-102 Mechanical Block

## **Mission**

- To present the current scenario of Governmental education system.
- To generate a sense of responsibility among the people for the subject.

## **Objectives**

- To create awareness among the individuals about the given case.
- To put forward the suitable measures to be taken to overcome the problem.
- To bring about a healthy discussion upon the given issue.

## **About the case**

Case study was an event in the SocialFest'19 held on 12 April 2019 in the seminar hall in Mechanical block of SLIET. The event was organised with a motive to spread awareness about a social issue. The topic for the case study was "Lagging behind of Government Schools". The case highlighted the problems faced by government schools about the infrastructure and the decreasing numbers of enrolments in government schools as compared to private schools. There were five questions based upon the case like the reasons behind the prevailing conditions and the measures that can be taken to overcome the issue, to which the participants had to give relevant and suitable answers. The case was provided on the official website of Socialfest'19 i.e. [www.socialfest.in](http://www.socialfest.in). There were five questions based on the given case to which the participants had to provide valid and elaborative answers. Based upon the answers given by them, they would be judged by the jury and awarded a prize and a certificate accordingly.

## **Expected Outcomes**

- The participants were able to put forward the challenges faced by the government schools.
- They could figure out the reason behind the decreasing number of enrolments in government schools as compared to private schools.
- They could also propose the necessary measures to overcome the situation.

**Event date:** 12<sup>th</sup> -13<sup>th</sup> April, 2019

**Event Handler :** Jatin Gaba

**Venue:** LC-5 (CSE Department)

**Health Centre**

## **1. Background and Context:**

Free medical camps are set up with a sacred aim to bring awareness amongst the deprived population of the country who have no access to basic healthcare services or knowledge about the diseases they are suffering from. So, medical camps provide free medical advice, medicine to the unfortunate people and refer for specialized treatment or surgery whenever it is required. These camps make sure people are getting the healthcare at the right time, and seeing the doctor early, enough before a small health problem turns serious.

## **2. Objective behind Medical Camps**

Medical camps are conducted by health professionals to carry out a limited health intervention amongst the underprivileged community. The poor attend these camps to get free check-up and treatment. Getting the appropriate kind of health checkup is vital for every human being and while considering it, some important factors like age, lifestyle, family background, and risks are taken into account.

## **3. How the Medical Camp was held:**

A free Medical camp was organized during the three day Socialfest'19 viz. from 11th April to 13th April, 2019. During the Medical camp free eye check-ups, Cancer awareness programs and Cancer screening checkup was conducted at Health Centre of Sant Longowal Institute of Engineering and Technology. Approximately, 500 poor people of nearby villages were benefited from this medical camp. The free medical camp was sponsored by the Civil Hospital (Government of Punjab), Sangrur and Homi Bhabha Cancer Hospital, Sangrur. The highly qualified doctors of the government hospital visited our Institute and conducted the medical camp in the Institute's Health Centre. Also, Dr. Nidhi had joined us in this noble cause and helped to conduct free eye checkup of the poor villagers. During the medical camp our whole socialFest team worked as volunteers and helped the doctors in controlling such a large mob so that medical checkup would be conducted smoothly.

At the end, the highly qualified doctors from government hospital also shared their views and importance of regular medical checkups. Health examinations and tests at the early stages of the illness can help to cure it faster and save a life before it can cause any damage. One can live longer and healthier only when the individual gets the right kind of health check-up, screening and treatments.

## 1. Background and context:

**Darpan: Ek Drishya Samaj Ko** is a play group active in SLIET, Punjab which is slowly earning its name through its outstanding plays that tries to eliminate various social evils existing in our society by creating a very deep impact on our minds and soul as well. The play group runs in the SLIET campus comprising of very talented and dedicated SLIETians who wants to bring a change in the society through their motivational acts. Miss Paramjeet Kaur is the faculty advisor of this play group.

## 2. Objective of the event:

The socio-cultural animation within "Street Play" aims to plant values and norms. Using the mediums of drama, music and dance, children's observations within everyday life can be challenged and this of course includes the stereotypical gender images which influence their social development from a young age. The goal of this activity was not only to entertain, but to create awareness amongst these children. It strives to make them aware of the role of women in society and the fact that women of all ages and social background deserve esteem and respect. The message (through play) also targets other members of society and their views on women's place in general.

## 3. How the event happened:

The playgroup got an opportunity during the three day Socialfest'19 held in our college campus from 11th April to 13<sup>th</sup> April. The play group enacted a very mind blowing play that aimed to capture young minds and help them realize the ill effects of gender discrimination. The storyline of the play focuses on women's rights and touches sensitive issues such as alcoholism, domestic violence, suppression and others.

On the second day of fest another play was organized near the main stage by "**Darpan: Ek Drishya samaj ko**" play group in which they target to uproot the evils of corruption from our country. Corruption is the most dangerous social evil prevailing in each and every part of society in today's world. It has its roots all around and has spread like a contagious disease. In the play there was a scenario in which evils of corruption was seen in our educational system. There was a student who failed to get admission in his college of choice inspite of good marks. On the other hand, a student who was not even deserving for that seat got easy admission as he was able to provide huge donation money to the institute's administration. This shows us how our educational system is under corruption which will certainly provide a major setback to our country's development as the number of quality engineers, doctors, entrepreneurs, etc will deteriorate for sure. The play gives a message to the spectators that corruption has to be entirely removed from the society for the better living conditions of the people and for the development of the nation both socially and economically.

#### 4. Conclusion:

Thus, through all these appreciable stuffs the play came to an end. It was spectated by a large mob comprising of students, faculties, and local people. The play helped to spread awareness among the youth as well as other spectators how they could come forward against various ill effects of society and fight against that to eliminate it and thus make our society a better place to live in.

#### 5. Credits

The students who played a remarkable role in making the play a successful one are Chitra sharma, Bikram Singh, Anuj Kumar, Rishav Kumar, Md Zeeshan Ali, Mehak, Amit Kumar, Ayush Gupta, Gurtarakpreetpal, Suraj Kumar, Nirbhay Kumar, Avinash Kumar, Abhijeet Gautam, Kiranjeet Kaur, Md Khursheed Anwar, Devraj anand and Vikas Kumar.

## 1. Introduction

It turns out that books with tower in the title are way more common than you think. Here are 500+ good books with tower in the title, including both fiction and non-fiction. It's safe to say that most of these titles are books about towers, but the core commonality between these books is that they have the word tower in the title.

## 2. Objective behind the event

A Tower of books was put up in the college campus attracting the students and needy one giving an access to books they are in need of at a negligible price. Mainly it was organised for the students from villages who cannot afford books but they need it.

## 3. About the Event

This event was organised under **Socialfest'19 SLIET, on 12<sup>th</sup>& 13<sup>th</sup> April 2019** .The event was organised for the needy peoples who need books & also for the people who want to help someone in the form of books. We were successful in gathering people for the successful accomplishment of this event. Approximately 1000+ people got books from the event location free of cost. The **BOOKS TOWER** event consisted of novels, Story Books, Biographies, Syllabus books of class from 1<sup>st</sup> std. to 10+2, etc.

## 1. Background and Context

Graduating students are thrown into a world of opportunities, choices and challenges. Some of our Universities are doing a good job of equipping their students with knowledge and skills in their field of study. Often it is not very clear as to what is expected of them from the professional and the academic world in nurturing their strengths to carve out a career for themselves and be a productive citizen of the World.

Due to lack of guidance among Indian college-going youth, they are prone to make uninformed career choices and keep jumping from one job to another due to unfulfilled work expectations. Also, there are a lot of students who aspire to go for higher education abroad or wants to gain some experience staying and working abroad for a while.

## 2. Objectives behind NRI Dialogues

1. To make the academic and industrial experience of successful NRI and students abroad accessible to current students through video conferencing platform.
2. To guide the choices of Indian youth related to higher studies and careers.
3. To make them aware of various opportunities available in India and abroad.
4. To expose the youth to current trends in various fields around the world.
5. To inspire them to contribute in making a better world by developing their skills and expertise in the area they relate to most.
6. To strengthen the ties, friendship and communications amongst former students, current students and faculty.

## 3. The major topics of conversation could be summarized as follows

1. Life experiences of the NRIs joined with us.
2. Role of government in providing better opportunities.
3. Studying/working in India v/s studying/working abroad.
4. How to make better career and life choices?
5. Whether to pursue higher studies or not?
6. Study options in India and abroad.
7. Opportunities coming up within India in the last few years.
8. Demand of skilled professionals in India in various fields.

## 4. How the event happened:

Often, a discussion with the right person can change the course of one's career. Vision India Foundation acted as a link between the knowledge seekers (students), and the potential speakers (Successful people of Indian diaspora abroad). Therefore, Vision India Foundation in association with SocialFest'19 organized an NRI-Youth Connect and brought together some people of Indian diaspora abroad to interact with the youth in India over a Zoom meeting video conferencing platform dated 13<sup>th</sup> April, 2019. The impact of event was very

successful as it helped to guide the youth in making career choices as well as sharing their own experiences living and working abroad.

### **The entire session was divided into two sessions of 45 mins each:**

1. First session was with a successful professional named **Mr. Sanjeev Gupta** of Indian origin. He has **20+ years of experience in the field of IT consulting & product development**. Currently he is working for a product company as a **Technical Director**.
2. Second session was with two NRI pursuing their studies abroad named: **Mr. Nandish Chattopadhyay** (he is an electronics engineer turned **data scientist**.) & **Mr. Anurag Gumber** (he is a recent graduate of **Master in Public Administration** from the **Harvard University, John F. Kennedy School of Government**.) They shared their experiences as well as guided the Indian youth in realising our dreams.

### **5. Expected Outcomes:**

1. Increase in awareness of Youth about the studying/career options they have in India and abroad.
2. Cultivating a tradition of such events to benefit students in future classed and other colleges where students do not have much guidance available.
3. Students who get benefited from their Alumni tend to give back more their Alma mater. This creates a strong and vibrant alumni network spread across the generations.
4. Also, professionals working abroad, can connect to the best talent-pool that is available through this Youth Connect dialogue.

## 1. Background and Context

Social media has become an integral part of all of our lives. We use it to connect with friends and family, to catch up on current events, and, perhaps most importantly, to entertain ourselves. This is why just under 70 percent of Americans, and more than 2.6 billion people globally, use social media. However, this wasn't always the case. Back in just 2005, social media penetration in the U.S. was just 5 percent, and most of the rest of the world didn't even know what it was. All of this means that the history of social media is a brief yet tumultuous one, and studying it can help us better understand just how much, and how quickly, the world around us is changing.

## 2. Objectives behind Social Media Workshop

- This workshop was organized to aware students about effective use of social media.
- To make them aware of various opportunities available in social media world.
- To expose the youth to current trends in social media.
- This workshop was conducted in which our students were taught about the productivity that our social media can enrol in for the personality development of the students.
- To strengthen the ties, friendship and communications amongst former students, current students and faculty.

## 3. The major topics of conversation could be summarized as follows

1. What is Social Media?
2. Role of social media in student life.
3. Effective use of social media.
4. How to make better career and life choices in Social media marketing?
5. Advantages and disadvantages of SM.
6. Opportunities coming up through social media.
7. Do's and Don'ts.

## 4. How the event happened

A workshop on effective use of social media was organised under the SocialFest'19 in the seminar hall on 12<sup>th</sup> April, 2019 with an objective to make the youth aware of the benefits, social media can promote in their lives and how it can help to propagate their idea of changing the world.

**Mr. Ravinder Sharma** delivered a lecture about the use of social media and what exactly does it mean. He is a Lab Technician of Chemical Dept. SLIET. He is basically from Bathinda, Punjab. He is also a Motivational Speaker and Writer. He is Pursuing MA Psychology from IGNOU.

The students attended the workshop and gained knowledge about the concerned topic.

## 5. Expected Outcomes

- Increase in awareness of Students about the Social media.
- Cultivating a tradition of such events to benefit students in future classed and other colleges where students don't have much guidance available.

The workshop on Rural Development under the theme Unnat Bharat Abhiyaan was organized on 13 April 2019 from 2:30 pm onwards. This workshop was a part of 3 day Social Festival being organized in the institute from 11th to 13th April. The objective of the workshop was to create an awareness and set up and prepare a road map for the seven adopted villages under Unnat Bharat Scheme, a flagship programme of Ministry of Human Resource Development Government of India.

Invitations to village heads (Sarpanches and Panches) were extended and all the sarpanches along with other respectable members of the villages were present on the occasion. Expert lectures by Shri Mohit Arora Manager Oriental Bank of Commerce, Shri Karamjit Singh a renowned expert in organic farming and principal scientist from Indian Council of Agriculture research Dr M Hassan were also present and delivered an experts lectures for farmers welfare schemes of Govt. of India.

The workshop started with a tribute to martyrs of the Jallian Wala Bagh. All the audience stood up for one minute to pay their homage to the martyrs of Jallian Wala Bagh.

At the outset Professor Pardeep Kumar Jain project coordinator of Unnat Bharat Abhiyan welcomed the Guests and highlighted the objectives of this schemes. He discussed about how institute can help the villages and he quoted the example of Gandhiji, who in the last years of his life dedicated himself for the Development of villages. He quoted a saying from Gandhi ji that if we want to see true India then move to villages and Gandhi Ji also started All India Village Industries association at Wardah.

After that all the sarpanches and other prominent persons of the villages came one by one on the stage and narrated problems which their villages are facing. The common problems which all the sarpanches talked about were as follows:

Firstly, the Sarpanch of village Sheron narrated the problems, which his village is facing, and he shared his views about Water Deficiency, Road Breakage. He also wanted that one playground should be in their village

for Children. He told that they are also facing the obstacle regarding medical facilities, as there are extremely inadequate medical facilities.

Similarly, All the Sarpanches and other dignitaries of other villages shared their problems and they expressed their hope that SLIET can be of great help to them.

In the end Director shared his views and he stress on the preparation of road map for all the villages and he advised the organizers of the project to constitute team of volunteers for every villages and gave a call to the students to join this Mission of UBA which is a part of social responsibility for the institutes of Higher learning and Students. He also advised the students to visit the Adopted villages for better understanding of Village Lives.

In the End all, the Sarpanches and other Dignitaries were felicitated by Hon'ble Director & Chairman Social Fest-2019 Dr. Arvind Jayant by giving them token of honor. The workshop ended with the National Anthem.
