## CIRCULAR

### How to make the PC/Laptop Bilingual (Hindi and English)

As per the Circular received from Ministry of Education, Government of India vide Ref.No.S.E.-11/13/2025 – R.B. PR. Dated 11.07.2025, Point No.05 is concerning to make all the computers to do the work in bilingual (English and Hindi). Thus, all are requested to install the Hindi fonts to make the computer bilingual. The details are given below to make the computer bilingual. There are several fonts to be used for hindi but for official correspondence the hindi section has decided initially to use **Unicode Font Mangal/Hindi indic Mangal Font (Bilingual Fonts)** and **Krutidev 010 fonts**. To make your PC Desktop or Laptop bilingual then follow the provided procedure:

Sr. No.	Particulars
1.	Download the attached ZIP/compressed file (03 Bilingual Setup Files.ZIP) in your PC, Extract the file to have Kruti Dev 010 Regular.TIF, Mangal.TIF, GoogleInputHindi.EXE, GoogleInputTools.EXE files.
2.	Copy Kruti Dev 010 Regular.TIF and Mangal.TIF files and place/paste inside C:\Windows\Fonts folder or install these fonts in your PC or laptop.
3.	Now install another two files GoogleInputHindi.EXE and GoogleInputTools.EXE one by one in your PC or Laptop.
4.	Congrats! Your PC is now bilingual if not then restart your computer.
