Vision for Interdisciplinary Research (Institute Innovative Cell, Serial No. 12):

The Institute Innovative Cell (IIC) envisions itself as innovative hub, with a commitment for development and adoption of innovative solutions based on technology and research, that balances cutting-edge engineering with real-world applications to drive sustainable development.

Sant Longowal Institute of Engineering & Technology
(Deemed-to-be University; Established by Government of India)
Longowal- 148 106, District- Sangrur, Punjab

By cultivating a vibrant ecosystem of entrepreneurship and integrating traditional knowledge with modern science to create a holistic research framework, the IIC is dedicated to develop low-cost diagnostic devices, wearable IoT-driven health monitors, and assistive technologies aimed at making quality healthcare accessible to underserved and rural areas. Alongside healthcare innovation, the IIC is actively pursuing advancements in green energy solutions through solar energy systems, smart grids, and sustainable power technologies. IIC also promotes research in additive manufacturing for rapid prototyping, customized product development, lightweight component fabrication, and advanced manufacturing applications across healthcare, agriculture, and engineering sectors. By leveraging artificial intelligence, drone technology, and precision farming techniques, research initiatives will optimize resource consumption, boost crop yields, and enhance the livelihoods of local farming communities.

Furthermore, the initiative promotes vocational education, digital literacy, and local entrepreneurship to empower communities and develop self-reliant society. By blending hands-on skill development with future-ready tech training, the IIC ensures that students and local communities are equipped with the practical, employable skills necessary to sustain and advance this ecosystem of collaborative, impactful innovation.
